In response to applicants amendment dated 7/17/06.

Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original application fails to disclose the embodiment of Fig. 14, claims 1-11 wherein the device includes "a connector at each end of the handle for engaging a hook of a connecting force".

Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a device which does not include "a connector at each end of the handle", does not reasonably provide enablement for . The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to the invention commensurate in scope with these claims. .

Claim 12 is allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the device of Ven Fig. 2.
